

ViCare

Design knows no barriers

Accessible bathroom design has a new standard: The versatile ViCare product family covers the entire spectrum of modern bathroom design. Accessible bathroom solutions in an attractive design are complemented by high-quality accessories that permit optimum planning of accessible bathrooms, whether for private homes or for multi-generational and nursing-care facilities.

Washbasins*

- + Handles at the front or concealed grooves along the front edge make it easier to pull up a wheelchair and provide support when standing
- + Excellent wheelchair accessibility and plenty of knee clearance permit personal grooming while seated
- + Selected models available with the AntiBac anti-bacterial glaze

Toilets*

- + Various wall-mounted and floor-standing toilets, also available with the anti-bacterial AntiBac glaze
- + Selected models are available with the innovative DirectFlush technology - easy cleaning for maximum hygiene

Toilet seats*

- + All toilet seats can withstand loads of up to 240 kg, more than the 150 kg required by the standard
- + Special buffers prevent the seat slipping to the sides when moving from the wheelchair to the toilet
- + Continuous hinge-bolt or QuickRelease and SoftClosing feature for easier use, a recessed groove along the edge of the lid facilitates opening

Accessories

- + High-quality accessories comply with the EU Medical Device Directive (93/42/EEC) and stand for safety and proven medical-technical performance
- + The handle systems can support loads more than 20 % higher than required for unrestricted wheelchair use (practical standard range in White 120 kg, stylish designer range in Chrome 130 kg)
- + Seating systems with a load capacity of up to 160 kg round off the range

The products comply with DIN 18040 for accessible bathrooms
